

Trainees: Enhance your research portfolio

Are you a specialist trainee in medical or clinical oncology, or surgery, and willing to help recruit to the **Add-Aspirin** cancer trial?

➤ **WHAT'S IN IT FOR YOU?**

- Gain research experience
- Receive advice on clinical trial recruitment
- Receive a certificate for your training portfolio

➤ **HOW TO GET INVOLVED**

- Check that your hospital is participating in the **Add-Aspirin trial** and that your consultant is happy for you to be involved. For a list of participating hospitals: http://www.addaspirintrial.org/information_for_participants
- Ensure your GCP training is up to date
- Liaise with the research nurse at your hospital and get on the delegation log for the trial
- Email us (quoting "Trainee recruitment scheme") to receive full details and advice/resources for screening and recruiting participants: mrcctu.add-aspirin@ucl.ac.uk
- Check the website for recruitment tips and liaise with the research nurse: <http://www.addaspirintrial.org/information-for-centres/>
- Help to recruit **at least 2 patients from any of the disease specific cohorts** during a 6-month attachment
- Email us the patient trial IDs to receive your certificate

➤ **WHICH PATIENTS ARE ELIGIBLE?**

The trial is assessing whether regular aspirin use can prevent recurrence and improve survival in patients with **Gastro-oesophageal, Breast, Prostate or Colorectal cancer** after being treated with curative intent.

Cohort	Eligible Tumour Types	Treatment
Gastro-oesophageal:	Adenocarcinoma or squamous	Radical chemoradiation <u>or</u> Surgery +/- neoadjuvant/adjuvant chemotherapy
Colorectal:	Adenocarcinoma stage II/III	Surgery +/- neoadjuvant/adjuvant chemotherapy
Breast:	Invasive breast cancer	Surgery +/- neoadjuvant/adjuvant chemotherapy <u>or</u> adjuvant radiotherapy
Prostate:	Node negative, non-metastatic adenocarcinoma (T1-3a)	Prostatectomy +/- adjuvant radiotherapy <u>or</u> salvage radiotherapy <u>or</u> radical radiotherapy

Patients are excluded if they are already taking aspirin/anticoagulants. **Please see full details of eligibility criteria in the trial protocol and on the website.**
